

# PROVIDING ARTWORKS: LASER CUTTING

format of Adobe Illustrator version 3.0/3.02 t/m Illustrator CS4:

1

Printing sheet supplied by you.  
Indicate feed guide

2

1x document \*PDF with the totaal image  
including the laser cutting elements.  
Paper size of document must be equal to the  
printing sheet.  
All printing marks except cropping and folding  
marks must be removed!

For a price indication we  
need a PDF file like nr.2.  
Pls. specify which parts must  
be laser cutting.

Files must be VECTOR-based  
(line drawing).  
Therefore no photo (pixels).

Drawings can best be made in  
2 colours.  
The background (the paper) in  
white.  
The elements which must be  
removed from the material in  
black.

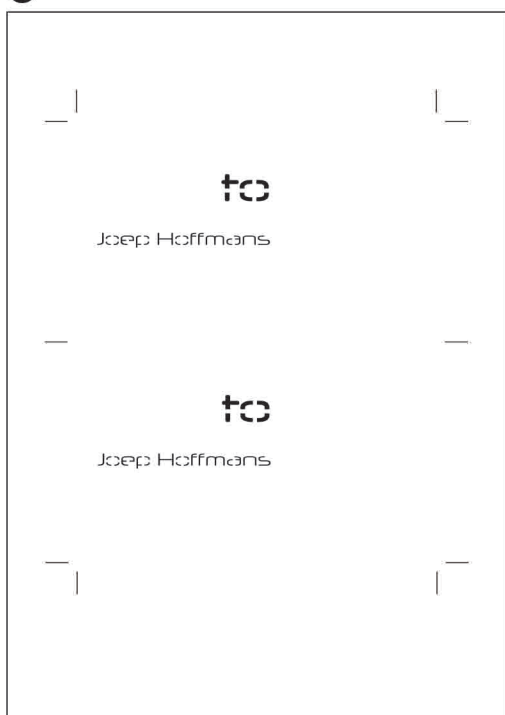

**All clipping masks must be  
removed.**

All elements in the drawing  
must be closed paths. Do **NOT**  
use lines.  
Lines must be changed into  
paths.

Info like crop and folding  
marks can stay.

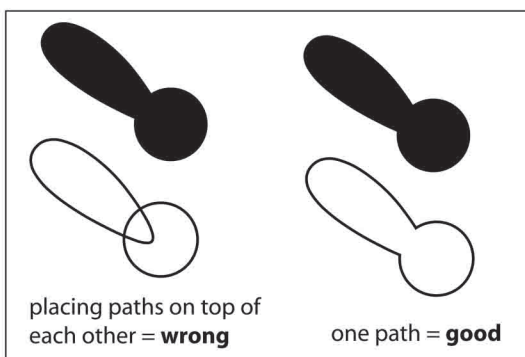

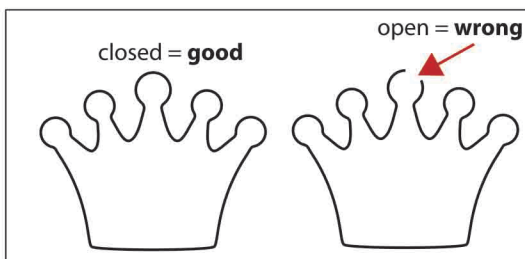

**Texts must be converted to  
curves (paths). So there are  
no fonts/letters available  
anymore.**

3

1x document: \*AI, \*EPS or an Adobe illustrator  
PDF with ONLY the image of the elements.  
Including cropping marks.  
Paper size of document must be equal to the  
printing sheet.  
In the document the paper size must be a white  
path with no line.

## General guidelines for the elements:

**ABCD** Texts must be converted  
to curves (paths). So there are no  
fonts/letters available anymore.

In the paths use as less points  
as possible. All edges will  
become straight and smooth.

Maximum printing size:  
51 x 71 cm.  
Otherwise in agreement.

Maximum paper weight is  
300 grams.  
Otherwise in agreement.

Pls. sent us a sample of the  
paper quality for a test.

**Point to Paper is not  
responsible for the designs  
supplied by you which are  
protected by Copyright or  
third parties.**
